TEACHING COURSES
IN PATHOLOGY

(BEGUTECOP)
II

*Gynecological pathology
and clinical aspects*

April 15 - 17, 2010

Belgrade, Serbia

Welcome Message

Belgrade, January, 2010

Dear Colleagues,

As we said in our welcome message for the first BEGUTECOP Course, if somebody made history in European pathology education, it was Prof. Niki Agnantis with „The Ioannina University Courses in Pathology (IUCP)“. So, it was easy to copy something good , and our first Course in April 2009 was a big success.

*It is a great pleasure for me to welcome you in Belgrade for the second BEGUTECOP Course :**Gynecological pathology and clinical aspects.***

We are sure that the idea of organizing educational Clinico-pathological Courses in Belgrade, now officially under the auspices of ESP, is of great importance, mainly for our residents and young pathologists, but for young clinicians too. It will demonstrate the importance and the challenge of better mutual collaboration.

The participation of distinguished tutors from abroad and Serbia, their experience and knowledge, and our determination to improve the level of pathology in Serbia, has allowed us to realize this second Course,...“ with a little help of my friends“.

I would like to express my sincere thanks to all my friends, especially to the tutors in The Gynecological pathology Course, for their contribution and enthusiastic vision, while helping us in this project.

Finally, I wish you a fruitful Course, and an enjoyable stay next April in Belgrade, designated by many as“ the European capital of cool“.

*Prof. Jovan D. Vasiljević, FRCPath
Director and Coordinator of BEGUTECOP*

Gynecological pathology and clinical aspects
