Poštovane kolegice i kolege,
Dragi prijatelji,

Zadovoljstvo nam je da Vas pozovemo da prisustvujete **IV IAN DONALD MEĐUNARODNOJ ŠKOLI MEDICINSKOG ULTRAZVUKA, DAN-u REPRODUKCIJE i 27.-om SIMPOZIJUM-u SEKCIJE ZA PERINATALNU MEDICINU SRPSKOG LEKARSKOG DRUŠTVA**, koji će se održati u Beogradu od 25. do 26. marta 2011 godine.

Svesni da nas samo kontinuirana edukacija uz usvajanje modernih principa, tehnika i tehnologija može voditi zajedničkom cilju – dobrobiti pacijenata, pozvali smo najeminentnije stručnjake iz zemlje i inostranstva da kroz predavanja i različite prateće sadržaje prikažu aktuelne trendove i savremene stavove iz oblasti ginekologije, reprodukcije i perinatalne medicine koje smo odabrali za teme ovog stručnog skupa.

Nadamo se da će ovako sadržajan program, uz učešće najeminentnijih eksperata doprineti posećenosti i uspehu misije koju primenjena nauka ima ne samo u širenju znanja, nego i u učvršćivanju starih i stvaranju novih prijateljstava.

Pozivamo Vas da kroz stručne radove i prezentacije, diskusije i pitanja uzmete učešće i da zajednički doprinesemo uspehu ovog za sve nas važnog stručnog skupa.

Dobrodošli,

Honorable colleagues,
Dear friends,

It is our great pleasure to invite you to participate at the **IV IAN DONALD Inter University School of Medical Ultrasound, DAY OF REPRODUCTION and 27. SYMPOSIUM SECTION OF PERINATAL MEDICINE** The Serbian Medical Association that will take place in **Belgrade from 25 th to 26 th March 2011.**

We believe that only continuous medical education lead us to our common goal – patient benefit. This topic-oriented meeting in the area of gynecology, reproduction and perinatology, in the two days, would give us an opportunity to hear and take part in attractive, up-to-date scientific topics and controversies brought to us in a wide variety of attractive presentation modalities.

Active participation of eminent specialists from abroad and Serbia through lectures and Round table discussions is of crucial importance, enabling ourselves to redefine approaches and set up guidelines to a number of controversies in our daily practice, plan our further scientific gatherings and, as a result, bring us a step closer to international theory end practice. Furthermore we do believe in a success, contribution and mission of the applied science in order not only to spread knowledge, but also in the strengthening of the old and creating of new friendships.

Last but not least, two dynamic scientific days in Belgrade are going to provide us with the opportunity to work, exchange ideas and knowledge, plan various, though attractive, futures and preserve nice memories of moments spent together.

We invite all of you to take part and contribute to the sucess of this scientific event so valuable for all of us.

Welcome,

Prof. dr Aleksandar Ljubić
