***Head and Neck pathology
&
Gynecological pathology***

7 - 9 April, 2011

Belgrade, Serbia

Welcome Message

Belgrade, April 2011

Dear Colleagues,

*It is a great pleasure for me to welcome you in Belgrade for the third Course in pathology, now under a new name „EScoP Belgrade 2011“. It will be dealing with **Head and Neck pathology**, and **Gynecological pathology** (undelivered lectures from last year Course).*

We are sure that the idea of organizing educational Clinico-pathological Courses in Belgrade, now officially under the auspices of ESP and Ministry of Health of Serbia, is of great importance, mainly for our residents and young pathologists, but for young clinicians too. It will demonstrate the importance and the challenge of better mutual collaboration.

The participation of distinguished tutors from abroad and Serbia, their experience and knowledge, and our determination to improve the level of pathology in Serbia, has allowed us to realize two first Courses, but the unexpected events due to volcano ashes, obliged us to postpone some of the lectures from Gynecological pathology. Mainly cytology and ovarian pathology. So, we are giving these lectures this year.

I would like to express again my sincere thanks to all my friends from ESP, especially to the tutors of this year Course, for their contribution in this project.

Finally, like always, I wish you a fruitful Course, and an enjoyable stay in Belgrade,

*Prof. dr Jovan D. Vasiljević, FRCPath
Director of EScoP Belgrade 2011 Course*
