***Update in Gastrointestinal
Pathology***

25 – 27, April , 2013

Belgrade, Serbia

With collaboration of :

Serbian Association for Pathology

Serbian Association of Pathologists and Cytologists

Belgrade Medical School

Welcome Message

Belgrade, April 2013

Dear Colleagues,

It is a great pleasure for me to welcome you in Belgrade for the fifth pathology Course, a new „EScoP Belgrade 2013“. It will be done in two parts, „introduction“ to the Course, dealing with some clinical and pathological topics from Serbian experts, and second part, the usual model of EScoP Courses, featuring Gastrointestinal Pathology.

The model was presented by Prof. Bosman, accepted by Education Committee of ESP, but we find the way to incorporate some of local tutors, experts in Gastrointestinal field. And, I think, this will promote better promotion and influence of pathology among our clinicial friends.

Like always before, we are sure that the idea of organizing educational Courses in Belgrade is of great importance, mainly for our residents and young pathologists, but also for our young clinicians too. It will demonstrate the importance and the challenge of better mutual collaboration.

The participation of distinguished tutors, their experience and knowledge, and our permanent fight to improve the level of pathology in Serbia, but also in surrounding countries, has allowed us to realize this fifth Course.

I would like to express my sincere thanks to the tutors of this year Course, for their contribution in this project, to support the development of pathology in South-East Europe.

Finally, I wish you a fruitful Course, and an enjoyable stay in Belgrade,

*Prof. dr Jovan D. Vasiljević, MCAP, FESC, FRCPath
Director of EScoP Belgrade Courses*

Update in Gastrointestinal Pathology

Local Organizing Committee

<i>Honorary President:</i>	Niki Agnantis
<i>President:</i>	Jovan D. Vasiljević
<i>Vice Presidents:</i>	Zorica Stojić Slavica Ušaj-Knežević Marijan Micev
